

Annexe 2: Homicide victim age distribution

Tracking National Homicide Rates: Generating Estimates Using Vital Registration Data

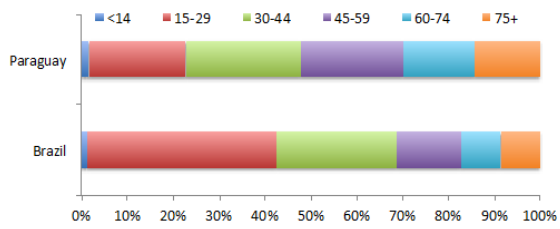

by Kavi Bhalla, Richard Matzopoulos, James Harrison, Lisa Knowlton, Elisabeth Gilgen, and Anna Alvazzi

For all graphs in Annexe 2, countries with fewer than 100 homicides in the most recent year have been marked with an asterisk (*). Results from these countries should be viewed with caution because of the small numbers involved.

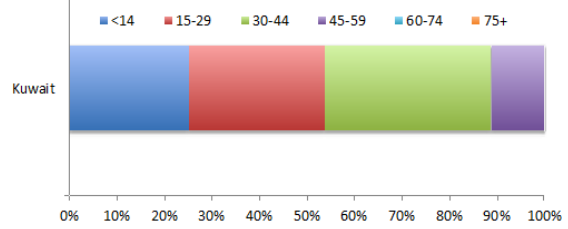

Latin America, Tropical

North Africa & Middle East

North America, high-income
